(ii) *re. Scarcity of drinking water in Athani town*

Sri A. A. DESAI. — I Call the attention of the Hon. Minister for Municipal Administration regarding scarcity of drinking water in Athani Town.

Sri D.K. NAIKAR (Minister for Municipal Administration and Political Pensions). — I beg to State as follows.

The Scheme for providing water supply to Athani town was administratively approved under Government Order No. LLH 139 TWD 57 dated 19-7-1959 for Rs. 13,42,135—under 'Q' Loans and

Advances by State Government-Loan to Municipalities (a) Loans for water supply and Technically sanctioned by the Chief Engineer, MI and PHE in No. 6656-60 dated 10-3-1960.

The Scheme was completed and commissioned on 1-3-1967. and the same was handed over to Town Municipal Council, Athani for maintenance on 26-1-1968.

The scheme is designed to supply water to the town at the rate of 15 GPCD for the population of 20 000 in the I stage. The discharging capacity of the existing 30 HP deep well turbine pumpsets is reduced to 0,000 to 12,000 on as against the designed discharge of 15,000 GPH due to wear and tear and also on account of frequent repairs and the age of machinery. Raw water is pumped through 10 dia rising main to the purification works. The purification works consist of aeration fountain, mixing channel and settling tank. The settled water is chlorinated and distributed to the town through a net work of distribution system.

Since the existing scheme is on sufficient for the present population of Athani town, a draft scheme amounting to Rs. 10-70 lakh has been got up to provide filtered water for a population of 40,000 at 20 GPCD. The Scheme is under the scrutiny of the Karnataka Urban Water Supply and Drainage Board.

SRI A. A. DESAI — I think the Karnataka Urban Water Supply and Drainage Board will take some considerable time. In the meantime will the Government be pleased to dig some borewells immediately?

SRI D. K. NAIKAR.—The scheme is to be prepared by the engineer in charge of the area and then that scheme will be submitted to the board. The board at its meeting should pass a resolution accepting the scheme and forward it to the Government for administrative approval. It is only after administrative approval is given by the Government that work will be taken up and money will be spent on that account.

SRI A. A. DESAI.— When will the administrative approval be given?

SRI D. K. NAIKAR — I made it clear in my statement that the scheme is under scrutiny by the board and as soon as the Government receives the proposal, administrative approval will be given.

SRI A. A. DESAI.— Is it not a fact that a similar assurance was given during the last session also?

SRI D. K. NAIKAR.— May be so; anyhow, I shall see that it is examined early.
